PEBBLE COFFEE TABLE WHITE 31x65x49

vtwonen

Additional description

Organic, tough side table
Concrete look fiber clay with a white finish
For indoor and outdoor use!
H 31 x W 65 x D 49 cm

Side table Pebble is an own design from the collection of the Dutch brand vtwonen. The table is made of concrete-look fiber clay with a fresh, white finish. A unique item suitable for both indoors and outdoors.

The Pebble side table has a height of 31 cm, width of 65 cm and depth of 49 cm. The use of materials gives Pebble a tough character, but the fresh white color and organic form gives the side table a friendly look.

Fiberclay is a dyed material with an open structure. If the furniture is left outside all year round and no maintenance is carried out, the top layer may become damaged. Think of fading or stains. Therefore, protect the furniture from rain and the night all year round. The best way to clean fibreclay furniture is with a soft brush and neutral soapy water, removing stains immediately avoids permanent damage....
