Material

Acacia wood is characterized by its warm red glow. This colour will soften slightly with use and exposure to light. The clear grain and flame patterns give a lot of character to this durable wood species. Colour nuances, irregularities and cracks give extra depth and character to this natural product.

Dimensions

Manzi is 44 cm high and 31.5 cm round. The legs are 40.5 cm high and 2.5 cm in diameter each. The top has a thickness of 4 cm and can carry 5 kg. Manzi has a weight of over 3 kg.

Maintenance

You can easily keep acacia wood items clean on a weekly basis with a clean, dry cloth. For more thorough maintenance, the acacia wood can be wiped with a slightly damp cloth and lukewarm water. Extra treatment is possible with a special furniture oil, this enhances the water-repellent effect of the natural oils hidden in this type of wood.

Delivery

The side table is delivered in one package. The legs are easy to assemble by using the supplied assembly instructions.
